

CONCEPTUAL NEWENT MUNICIPAL CAMPUS

The Town has acquired several parcels of land in Newent, some of which include sufficient space and access to warrant consideration as possible sites for municipal facilities without compromising the recreational and open space goals set in the 2000 Master Plan for Lisbon Meadows.

A conceptual municipal campus plan for Town properties in Newent is shown on the facing page, identifying nodes, or available sites, for current and future facilities. The table below lists existing and potential uses for each site, with the preferred use for each highlighted.
